Hyundai Expands NEXO Fuel Cell SUV Availability In Northern California at Roseville Hyundai

- NEXO is the World's First and Only Hydrogen-Powered Production SUV
- NEXO has an EPA-estimated, Zero-emissions Range of 380 miles
- NEXO Benefits from Substantial Hydrogen Infrastructure of [42 Stations in California](#)

FOUNTAIN VALLEY, Calif., Sept. 10, 2020 – As California continues to lead the nation in clean air initiatives, Hyundai fuels the advancement of sustainable mobility and zero emissions solutions with its [NEXO fuel cell SUV](#), now available at [Roseville Hyundai near Sacramento](#). Roseville Hyundai is the fourth dealership in California to currently offer NEXO, with two dedicated dealerships in Northern California and two in Southern California. NEXO is available now and can be leased for \$379 (Blue model) or \$449 (Limited model) for 36 months. In addition, the first year of maintenance is free of charge.

“With quick refueling times, impressive driving range and zero emissions, Hyundai NEXO represents the future of sustainable driving solutions, and we’re excited that Roseville Hyundai now offers the NEXO to our customers in Northern California,” said Randy Parker, vice president, National Sales, Hyundai Motor America.

[NEXO](#) is the technological flagship of Hyundai’s growing eco-vehicle portfolio. Based on a dedicated vehicle platform, NEXO is the cleanest, longest-range (380 mile) zero-emissions SUV on the road. NEXO refueling is as short as five minutes, allowing a consumer lifestyle similar to a comparable gasoline-powered SUV in terms of both range and refueling speed.

Hyundai is a pioneer in proprietary hydrogen fuel cell technology and continues to spearhead the advancement and research of fuel cell systems to reach a global hydrogen society spanning beyond mere transportation. In fact, in February 2020 Hyundai announced the expansion of its partnership with the U.S. Department of Energy to support the DOE Hydrogen and Fuel Cells Program which addresses the technical barriers and works to accelerate the progress of hydrogen and fuel cell technologies across a range of applications and sectors.

Hyundai Motor America

At Hyundai Motor America, we believe everyone deserves better. From the way we design and build our cars to the way we treat the people who drive them, making things better is at the heart of everything we do. Hyundai’s technology-rich product lineup of cars, SUVs and alternative-powered electric and fuel cell vehicles is backed by Hyundai Assurance—our promise to create a better experience for customers. Hyundai vehicles are sold and serviced through more than 820 dealerships nationwide and nearly half of those sold in the U.S. are built at Hyundai Motor Manufacturing Alabama. Hyundai Motor America is headquartered in Fountain Valley, California, and is a subsidiary of Hyundai Motor Company of Korea.
