## Hyundai Recognized for Commitment to Military Veterans

- Listed as a “Best for Vets Employer” by Military Times for 2022
- Named a “Military and Military Spouse Friendly Employer” by MilitaryFriendly.com

**FOUNTAIN VALLEY, Calif., Dec. 13, 2022** – Hyundai Motor America was recently recognized for their support of military service members and their families. Military Times included Hyundai on their [2022 Best for Vets employer list](#) and [MilitaryFriendly.com](#) designated them as a Military Friendly and Military Spouse Friendly Employer for 2023.

“At Hyundai we are proud to support the military community and their families, and we are truly honored to be recognized as a top employer for veterans,” said David VandeLinde, vice president, after-sales, Hyundai Motor America. “These service members have sacrificed so much for our country, and we are privileged to call many of them members of the Hyundai family.”

Hyundai created the Stars and Stripes employee resource group to honor veterans, military service members and their families within the company. The company allows veterans free access to our factory training centers both in-person and via online courses throughout the United States where they can jump-start their automotive career even before their separation from the military.

In addition to supporting veterans as an employer, Hyundai also offers discounts for eligible active duty, reservist/National Guard, veteran, and retired U.S. military personnel through its special [military program](#).

The Best for Vets survey is a highly respected independent analysis of a company’s efforts to recruit, retain, and support current and former service members, military spouses, and military caregivers. And the Military Friendly designation measures an organization’s commitment, effort and success in creating sustainable and meaningful benefits for the military community.

## Hyundai Motor America

Hyundai Motor America focuses on 'Progress for Humanity' and smart mobility solutions. Hyundai offers U.S. consumers a technology-rich lineup of cars, SUVs and electrified vehicles. Our 820 dealers sold more than 738,000 vehicles in the U.S. in 2021, and nearly half were built at Hyundai Motor Manufacturing Alabama.
